SUMMARY

I am currently a front-end developer at the User Experience & Design Team at Voyager Innovations Inc. (a subsidiary of Smart Communications). I am a BS in Computer Science graduate (Summa Cum Laude) looking for opportunities in developing full-stack web applications using the best and latest technologies applicable. Kindly visit my portfolio at <http://nelonoel.github.io>.

EXPERIENCE

Voyager Innovations, Inc., Front-end Developer (June 2014 – Present)

- Participated regularly on scrum meetings and sprint planning.
- Developed responsive web apps used by up to a hundred thousand users.
- Contributed to 4 major projects in six months and won a recent hackathon.
 - *Smartnet 2.0*: Smart's very own social network, which also aggregates feed from users' Facebook and Twitter accounts. (smartnet.ph)
 - *Voyager Developer Portal*: Public APIs from Voyager products. (developer.voyagerinnovation.com)
 - *MePay*: a cross-platform payment solution. (mepay.ph)
 - *Takatack*: online marketplace. (takatack.com)
 - *Smart Places*: a mobile app for location-based reminders and actions. (<http://invis.io/MZ1TPO854>)

UE Research & Development Unit, Team Leader (June 2011 – April 2014)

- Developed software and facilitated system deployments for various university events. Systems include: Event Registration, University Student Council Election, Pageant Management, Battery Exam Tutorial Enrollment and the UE API.
- Designed and developed web and mobile applications for competitions outside the university. Applications include:
 - *Ellen*: Chatbot and Community Mobile App (Philippine Commission on Women)
 - *The Cooking Colonel*: Advertainment Mobile Game (KFC Philippines)
 - *Pledgr*: Charity Work Recommender (GlobeLabs)

- *Ang Budget Mo*: Crowd-Sourced National Budget Allocation (Department of Budget Management)
- *phTweet*: Filipino Twitter Analytics (TrendMicro)
- and *Casa San Miguel*: Charity Organization Website (Philippine Web Designers Organization).
- Facilitated member and non-member trainings about web technologies (PHP, JavaScript, HTML, CSS), and design (Adobe Photoshop, Fundamental UI/UX Concepts).

Forthmedia Interactive, Intern (April 2013 – May 2013)

- Developed Facebook apps for *Kenny Rogers* (Online Raffle) and *PLDT* (Photo Contest). Both apps reached an average of 2,500+ monthly users.
- Presented software to a DTI representative and had it approved.
- Designed and developed content management systems for *MediCard Lifestyle Center* and *WineStory*.
- Tested web apps for *Metrobank* and *Bridgestone Asia*.

ACHIEVEMENTS

Here Hackathon

Here Maps Philippines

1st Runner Up, 2014

GlobeLabs API Developer Day

Globe Valero Showroom

3rd Runner Up, 2013

Readysaster Hack

Philippine Open Data Initiative

1st Runner Up, 2014

IT Quiz Bee

University of Makati

2nd Runner Up, 2013

Caritakathon

Philippine Web Designers Organization

Champion, 2014

3rd National Debugging Challenge

Polytechnic University of the Philippines

Champion, 2012

Magna Carta for Women App Dev Contest

Philippine Commission on Women

2nd Runner Up, 2014

KFC Youth Innovation Challenge

De La Salle University

3rd Place & So Good Design Special Award, 2012

Java Programming Competition

Technological University of the Philippines

2nd Runner Up, 2014

1st Runner Up, 2013

Web & IT Summit: Code Challenge &

Web App Development Competition

AMA Computer University, Quezon City

Champion, 2012

TECHNICAL SKILLS

- **Front-end Web:** HTML5, CSS3, JavaScript, jQuery, AngularJS, Ionic, Foundation, Bootstrap, SASS, Compass, Responsive Tech
- **Back-end Web:** NodeJS, SailsJS, PHP, CodeIgniter
- **Data Stores:** MySQL, Mongo, Redis, Firebase
- **Multimedia:** Adobe Photoshop, Adobe Audition
- **Development Tools:** Git, Grunt, Invision, JIRA Agile Development

RESEARCH WORK

- The Role of Trust in a Web-Based Election System Usability
16th International Conference on Information Integration and Web-based Applications & Services, Association for Computing Machinery (ACM)
October 2014
- Riant: a Web-based Visual Integrated Development Environment
for JavaScript-based Rich Internet Applications
Philippine Computing Science Congress
Ateneo De Naga University
March 2014
- Web-Based University Student Election System:
Development and Predictors of Usability
World Academy of Science, Engineering and Technology
Tokyo, Japan
May 2013
- Experiences in the Implementation of a LAN-Based Election System at the
University of the East: Basis for the Development of a Web-Based Election System
Information Technology for Medicine and Education 2012
Institute of Electronic and Electrical Engineers (IEEE)
Hokkaido, Japan
September 2012

EDUCATION

University of the East, April 2014
Bachelor of Science in Computer Science
Summa Cum Laude (GPA: 1.17)
